

The banking industry is at a critical juncture in which old business models are being rewritten and the new environments are driving changes. There has been a paradigm shift in many different areas such as the business channels, the competitive landscape, the macro environment, the business models etc.

This year's HKIB Annual Banking Conference will look at the upcoming changes to the industry and discuss how the industry should react to the emerging challenges and opportunities such as the emergence of digital and mobile technology, competition from non-financial institutions, attracting new talents, the speeding up of RMB Internationalization etc.

With a main plenary session in the morning and specialized streams in the afternoon, the event is specifically tailored for mid-senior level banking professionals looking for macro views and actionable takeaways. This flagship event will attract over 600 delegates including bankers from Mainland China and Macau.

This year's event will continue to look at the most pressing issues of the industry with an interactive program that provides impartial and high-quality content.

Afternoon Breakout Streams

Stream 1: Banking Business (Retail, Commercial & Private Banking)

This stream aims to look at the changes in retail, commercial and private banking business with the focus on the changing landscapes and how the industry can capitalize on the new opportunities available.

Stream 2: The Transformers

This stream aims to discuss different business transformers that will have a big impact on both business and operations. Through the interactive discussions, the experts will highlight the potential game changers and how the industry should embrace new technologies, new solutions and new mindset.

Stream 3: Compliance, Operations and Risk Management

This stream aims to cover the latest developments in the areas of compliance, AML, regulatory reporting and risk management.
